

***Dyeing with Flowers***

4 Hours, \$800

Join Aaron Sanders Head Head for an exploration of dyeing with flowers!

Using flowers from Aaron's dye garden, like cosmos and marigolds, we'll explore various ways of passing the beautiful colors of flowers to fiber in longlasting ways, as well as how to prepare your fabric for best results. We'll explore bundle dyeing, immersion dyeing, flower pounding and shibori, enabling participants to create their own unique language through textiles and plants.

Students are provided with a fabric for bundle dyeing and a handkerchief for experimenting. Participants are encouraged to bring 1-2 additional small homegoods or accessories. These items must be made of natural fiber, and should be thoroughly pre-washed before the workshop.
